The only lack of equipment in a modern hospital? Someone to meet you at the entrance with a handshake and a hospital gift card for \$10,000.

- Dr. Martin H. Fischer

Customized medical hospitality maps show how much you care about patients, their families, friends, and other visitors.

Concierge Maps carefully branded to your hospital show visitors exactly where to go for necessities before and after treatment or visiting hours. In so doing they save time and stress, so everyone can concentrate on keeping spirits strong, and the patient's recovery.

Make your special patients, families, friends and visitors more welcome and comfortable by mapping:

- Friendly value restaurants
 - Lodgings
 - Safe parking
 - Banks and ATMs
 - Book stores & magazine stands
 - Pharmacies
 - Grocery stores
 - Delicatessens
 - Doctor offices
 - Playgrounds and parks
 - Flower shops
 - Public transportation
 - Book stores
 - Public transport
- and other venues and points of interest!

Excellent Guide for Newcomers

Your brand stands out!

When we turn these maps into digital interactive maps, they become powerful tools for your patient's family and friends available on your website or in the App store!

WE ARE EXCITED TO WORK WITH YOU!

At Maps.com, we want to help you support your work with patients and their friends and family.

Here are our next steps to begin creating your custom map:

STEP ONE

Create the basic layout for your map. This is where we will work together to create the design for your map and explore what features and coverage area you want to showcase.

STEP TWO

Using this information we generate a quote, and once you approve it, we will get to work! You should be able to take a look at the first draft of your map within a few weeks.

STEP THREE

Once the map is created, we will send you a proof to review. We will work back and forth with you to make sure that it meets your expectations, making adjustments till it is perfect! Once it's finished, we will send the files off to the printer!

FINAL PRODUCT

We now have a map for your clients that will make your hospital proud, and again show how very thoughtfully and thoroughly you care for your patients and visitors.

"In the sick room, ten cents of understanding equals ten dollars worth of medical science."

- Dr. Martin H. Fischer
